TRAECE - Exchange and Mobility list

Date: 17th June 2021

On the last virtual transnational project meeting 17th/18th June 2021 we decided to upload our mobility list. Originally we wanted to test our variety of products with real internships in the partner institutions. The pandemic stopped this testing. We are planning to do the exchanges afterwards the projects end to practically work with the developed tools we invested a lot of energy and time.

We invite all visitors and users of the website to become part of the TRAECE family. We would like to add your institution if you go along with our idea and tools. The list is supposed to be extended and we will update the list every three months. For being integrated please set up contact to the project coordinator (contact data in the end of document). We hope to welcome you very soon!
