**TSMT Database**

**There have been 3 groups training the database.**

**Some impressions...**

- I think that in our blue group people understood the logic. We performed a couple of mobilities on CPV - Estonia and CPV to Spain. It worked. I think now it is a matter of exercise and repeating the procedure some more times.
- It was logical and simple to use, once you got familiar with it. As hosts it is really simple to operate in this database. Questions might appear when we really start using it.
- I think everybody in the green group understood the tool. I think it is a great tool and now we have to practice some more.
- It is a very intuitive web, it is a great work.
